

NET ART

Katie McQuiggan
Spring 2022, ART2602

Description

In this project, I deconstructed a new article to cut-ups. These cut-ups will then be randomized to create a new line of text. The story that will be created will be the inspiration for a short web artwork using HTML and CSS (netart).

REFLECTION

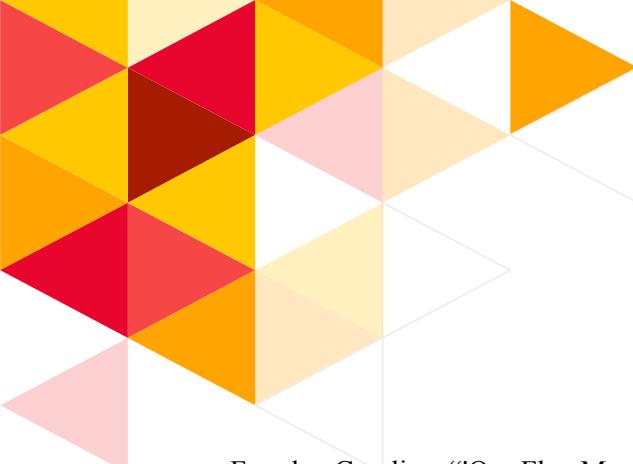

ARTIST STATEMENT

In this project I collaged different images that were inspired by a Dada Poem. I created these collages using Photoshop as well as HTML. This project was a lot harder than I thought it was going to be, but in the end I am happy about the way it turned out.

After this project I feel like I know even more about NET. ART and how to code better!
